

Installation and Configuration of CloudSim in Eclipse IDE

AIM:

To install and configure the CloudSim in Eclipse IDE and run a java program in it.

PROCEDURE:

1. Java Installation:
 - a. Check Java in your system.
 - b. If Java not installed then download Java.
 - c. Install Java setup.
 - d. Set the path for Java in Environment Variables.
2. Download Cloud Sim and Additional JAR file:
 - a. Download CloudSim 3.0.3
 - b. Download common math 3 JAR file
3. Eclipse IDE Installation:
 - a. Download the correct version of Eclipse IDE for your system.
 - b. Install Eclipse IDE.
4. Run Cloud Sim in Eclipse:
 - a. Put the common math 3 JAR file in the JAR folder of CloudSim.
 - b. Build a new java project with CloudSim folder.

CODE:

```
